Welcome to the eLearning Website.

We are pleased to announce Green University, a new eLearning program which provides exciting learning opportunities to all employees!

Through eLearning, all DTSC staff will have access to thousands of Professional Development and Compliance courses and reference materials that can be accessed anytime from your workstation or your home computer.

The eLearning program will play a key role in sharpening your job skills, improving on-the-job performance, contributing to career advancement opportunities, and supply DTSC with a highly skilled workforce prepared for workplace challenges and the demands of the future.

The Department of Toxic Substances Control is committed to providing the tools you need to do your job efficiently and effectively. Please take advantage of this training and career development opportunity to enhance your skills and prepare yourself for future opportunities with DTSC and the State of California.

Best Wishes,

Maziar Movassaghi
Acting Director
