Ultimate – EPIC Live Access

Overview

EPIC Live delivers real-world tips and tricks that students can't get from standard training courses. We know that most networks incorporate the best gear from multiple vendors – so learning about a single technology in a vacuum is just not good enough. Not only do our instructors cover the latest software and its interactions with other common devices, they make sure our students understand the “how and why”, how to avoid common pitfalls, and they'll cover the important workarounds.

Maximize your investment in your technologies and in your team with a real world, expert-led Ultimate Access subscription.

Why Choose EPIC Live?

With massively engaging content, Hollywood style HD delivery, and passionate instructors that live and breathe IT, Stormwind EPIC Live was designed and inspired by eliminating everything we despise about traditional, boring online and classroom training.

Hollywood meets IT training: online classrooms never looked this good.

Maximize Your Budget – And Get Your Team Trained NOW

With an Ultimate Access subscription that costs less than two of our individual Cisco or Microsoft courses, and a LIVE class schedule that won't leave your network unattended, you can afford to turn your entire team into highly trained professionals and do it in less time.

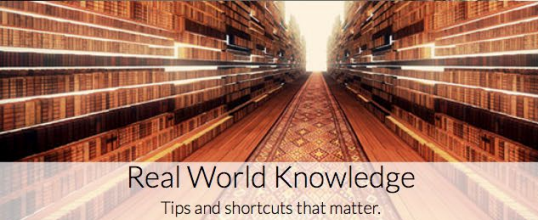

What You Get

Ultimate – EPIC Live Access packaging automatically includes access to ALL course updates and any NET NEW courses that are released during your term of service - and we're always adding new courses. The package includes access to:

- ✓ A full calendar of LIVE instructor-led class events, every month, for the entire term – no limitations
- ✓ 24x7 access to ALL Instant Replays – Constantly refreshed, HD video recordings of the Live class sessions
- ✓ Certification Practice Exams*
- ✓ Labs*
- ✓ 1:1 Mentoring for Q&A with your instructor during the entire term
- ✓ Downloadable Student Guides
- ✓ Access to the BEST Instructors in the business
